Subject: RE: QFRs - Coordination with OECA, OW, OITA and OCSPP

All

OW & OITA & OCPFF

OLEM does not have any comments on the responses 97 & 98. We are reviewing the drafts of the answers from OW and OITA on Marine Litter (190-195). I would expect that at most we might provide a couple of references to OLEM activities in this area if not already mentioned. We had no comments on OCPFF's answer to 194.

OECA

We should be able to send the answers to the OLEM questions with OECA interest (questions 44 (East Chicago), 67 (RMP), 77 (Conservation and Superfund), 101 and 102 (Hudson) very shortly.

Lee

I expect we will not have any comments on OW's answers to 97 & 98. The OLEM team is gathering at 2 and just after that we will either confirm we have no comments or send you any comments that we have to these OFS.

Subject: RE: QFRs - Coordination with OECA, OW, OITA and OCSPP

Peter,

On question 77 we are fine with you taking the lead and using the Good Sam provisions as an example. We in OW will take the lead on the other PFAS questions, (already have draft answers to those questions) and are waiting for your comments on 97 & 98. On the marine pollution provisions we have working with OITA but will be happy to send you our draft responses to the OW assigned questions on Marine Debris.

Thanks for the update.

Lee

Subject: QFRs - Coordination with OECA, OW, OITA and OCSPP

All:

The following note is OLEM's latest thinking on the coordination of the QFRs that have multiple office equities. Please let us know if you have other or different thoughts about the best way to proceed forward. I have copied the OLEM IO and the core team from OLEM working on the responses and our contacts in OCIR.

OECA

Susan and Larry, we see overlap with the following questions 44 (East Chicago), 67 (RMP), 77 (Conservation and Superfund), 101 and 102 (Hudson). We propose that OLEM will take the lead on drafting on these questions (unless OW takes the lead on 77) and will send them to you and whoever else you would like to review our draft answers. Region 2 has sent us proposed responses to the two Hudson questions based on the briefing materials that they had prepared and been using.

OW

David and Lee, we see overlap with the following questions 77 (Conservation and Superfund) and 97 ,98, 150 – 154 (PFAS) and 190-195 (Marine Litter). For question 77 we anticipate referencing the workd being done by Good Sams for mines and referencing the use of conservation easements. Lee has already sent us drafts for 97 and 98 that we are reviewing. We expect that you will have the lead on the remaining PFAS questions. We could take the lead for the response to 192 and provide supporting material for a couple of the other Marine Litter questions. Please let us know who we should coordinate with in sharing our draft responses.

OITA

Chad and Jane, we see an overlap with 190-195 (Marine Litter) and as proposed above we take the lead on 192 and support some of the other responses. Please let us know who we should coordinate with on these OFRs.

OCSPP

Alex and Nancy, there is an overlapping assignment on 194 (Marine Litter) that seems to me to be principally an OCSPP question. We would be glad to support if needed. Please let us know who we should coordinate with in your office.
